SUMMARY

Aspiring **UI/UX Designer** with experience designing web and mobile experiences, conducting **UX Research**, and creating high-fidelity prototypes in **Figma**. Skilled in **User Flows**, Wireframing, **Information Architecture**, and **Design Systems**, with a strong focus on **User-Centered Design** and cross-functional collaboration.

WORK EXPERIENCE

Web Designer — SvisionTek Consultancy Services Private Limited

May 2025 - Nov 2025

- Conduct **UX research** (quick usability tests, competitor analysis) to inform design decisions and **user flows**.
- Create **high-fidelity UI designs**, reusable components, and developer handoffs in **Figma**.
- Implement responsive HTML/CSS prototypes and maintain pixel-perfect translation from design to code.
- Collaborated with cross-functional teams to maintain brand consistency and improve user experience.

UI/UX Designer — Filmy Funds

Jun 2025 – Sep 2025

- Designed mobile UI prototype in Figma, tested with **5 users**, fixed 3 navigation issues and improved flow.
- Created reusable Figma components, reducing redesign time by **30%**.
- Conducted **UX Research** and **Usability Testing** to identify pain points and inform design decisions.
- Tested prototypes to identify usability issues and validate user journeys.

Front-End Developer Intern — Filmy Funds

Jan 2025 – May 2025

- Developed 5+ responsive UI screens using React.js, Tailwind CSS, HTML, and JavaScript.
- Translated Figma designs into reusable, responsive interfaces while collaborating with developers.

PROJECT

MindSpark Education – Web & Mobile UI/UX Design | [Case Study](#)

- Designed web and mobile UI for an education platform with **Admin and Student panels**.
- Created **User Flows**, **Information Architecture**, and key **user journeys** to improve **usability**.
- Delivered **responsive, high-fidelity designs and developer-ready prototypes**.

SvisionTek Corporate Website - End-to-End UI/UX Design | Case Study –Ongoing

- Conducted **Competitive Analysis** and stakeholder discussions to define business requirements and **Information Architecture**.
- Designed 11+ screens, User Flows, Wireframes, and high-fidelity prototypes in Figma using User-Centered Design.
- Created a reusable **design system** and collaborated with developers for accurate implementation.

Movie Investment App — UI/UX Design | [Link](#)

- Developed Movie App **design system** in Figma → ensured consistent UI across **12+ screens**.
- Applied **Interaction Design**, **Accessibility**, and **Responsive Design** principles to enhance usability.
- Created high-fidelity prototypes for collaboration and developer handoff.

TOOLS & SKILLS

Design Tools: Figma, Jitter, Framer, Canva, VN Editor
Design Skills: UX Research, Wireframing, Prototyping, User Flows, Information Architecture, Design Systems
AI Tools: Google, Stitch, Lovable, ChatGPT
Front-End: HTML, CSS, JavaScript, React.js, Bootstrap
Soft Skills: Curiosity, Problem Solving, Collaboration, Empathy, Time Management.
Others: Git, VS Code, Notion, Video Editing

EDUCATION

Institution Of Engineers, Kolkata, India
BTech(Computer Science and Engineering),2023

CERTIFICATIONS & AWARDS

- **Figma UI UX Design Essential** – Udemy
 - **JavaScript Certification** – Scaler Academy
 - **Problem Solving Milestone**
Solved 400+ coding problems on CodeChef and LeetCode (C++, DSA)
-
